Look forward to hearing from you soon.

Best Regards

Dear Pr.KRIT Salah-ddine,  
Thank you for your support.

We have received the plagiarism detection reports and will check them carefully. Suitable papers will be sent out for peer review. Only after clearing the peer review process is a manuscript accepted for publication. You will expect the review reports for revision and resubmission in the following days.

Usually, about 40-60 working days will be involved in the whole publication process.

The publication process for manuscripts is as follows:

- 1.All manuscripts are first screened to determine their potential suitability for the journal.
- 2.Within 7 business days, authors will be notified whether their manuscripts are approved for the initial screening.
- 3.Approved manuscripts will be further assessed by reviewers. Usually, it will take 30 business days to complete the peer review for one manuscript.
- 4.Authors will expect 7 days for the revision and resubmission.
- 5.After receiving the qualified revised version, it will be accepted for publication within 7 business days.

And payment instructions will be notified after the acceptance of the papers.

Please feel free to contact us if you have any questions.
